

## Scale Your MSP with Easy, Secure Support

One streamlined solution makes it easy to securely monitor, manage, and support your IT clients.

### GoTo Resolve for Managed Service Providers

See what's going on in your IT universe and take action to resolve issues with an all-in-one IT support & management solution that gives you the capacity to support even more customers.

#### Manage everything, solve anything.

Offer multiplatform IT support with powerful RMM functionality.

#### Level up customer experience.

Meet any user on any device with "right fit" support functionality.

#### Stay protected with zero trust security.

Provide peace of mind with zero trust RMM architecture and permission-based support with government-approved encryption.

#### Streamline support.

Remove headaches by bringing together modern, powerful RMM functionality with useful Professional Services Automation (PSA) integrations.

### GoTo Resolve makes more possible for MSPs:

- Unattended access
- On-demand remote support
- Easy IT automation
- Customizable alerting
- Modern patch management
- Background access
- Mobile device support
- Conversational ticketing
- Zero-download camera sharing
- MSP-specific subaccount management and reporting
